

8 June 1956

**MEMORANDUM FOR:** Project Approving Authority

**THRU:** Office of Logistics, Transportation Division, Planning  
and Control Staff

**SUBJECT:** Justification for Project AERANHEE - FI TVA

1. Project AERANHEE - FI requires one quasi-personal two-door foreign make sedan. The project receives administrative support from the base at Frankfurt, Germany, through a field case officer.

2. This vehicle is to be used by one contract agent, [ ] under non-official cover. The estimated cost of this vehicle is \$1400, including registration fees, etc. This agent will make regular trips in and around Frankfurt to develop operational leads and to effect clandestine meetings with other operational personnel and with the field case officer. It is estimated that his daily mileage will be fifty miles.

3. This agent has no overt contact with the field station and to safeguard his cover, Station vehicles cannot be used and other station employees will not use this vehicle.

4. The foreign make vehicle is required for inconspicuous contacts with indigenous persons with whom this agent will conduct most of his activities.

5. Commercial transportation facilities cannot be used for security reasons.

6. The utilization of this vehicle will be controlled by the field case officer and a Declaration of Trust and Bill of Sale will be executed by the agent.
